SANTA BARBARA CHRISTMAS BIRD COUNT TIED FOR NUMBER TWO IN NATION!

By Joan Easton Lentz

anta Barbara birders have done it again! On January 2, 2010, we had great weather, great participation, and great birds—a recipe for a hugely successful Christmas Bird Count! A record high number of 223 participants in 78 groups combed the territory within our Count Circle, which is centered at the intersection of San Marcos Pass and Foothill Road.

The result was a total of 216 different species, enough to put us ahead of all other California Christmas Bird Counts and to tie with one of the big, new Texas Counts: Guadalupe Delta/McFadden Ranch. (They had rain!)

Wonderful birds were tallied, some of which had been "staked out" beforehand and some of which were found new on Count Day. In the top tier were the real goodies: a Longtailed Duck at the harbor, a Red Knot at Isla Vista Beach, a Broad-billed Hummingbird at a private feeder, a Broad-tailed Hummingbird at Fairview Gardens, an Eastern Phoebe near Ocean Meadows Golf Course, two Lewis's Woodpeckers, a Plumbeous Vireo, and a returning Grace's Warbler back for its second winter.

Each Count has its strengths and weaknesses, and this year's was a standout for Orioles. What a show! Three Orchard Orioles, two Hoodeds, 10 Bullock's, 2 Baltimores, and a Scott's made for great bird finding. There were lots of hummingbirds, including 19 male Allen's, 33 selasphorus (sp.), and a rare Rufous Hummingbird.

On the other hand, numbers of montane species were particularly low. A few Mountain Chickadees, a Red-breasted Nuthatch, and a couple of Golden-crowned Kinglets were just about all, along with one Townsend's Solitaire on East Camino Cielo. Only ONE Pine Siskin in Mission Canyon is certainly a lucky, lucky break, in contrast to some years when Siskins could be seen at every feeder!

The bigger the CBC grows, the more we need everyone's help. I want to thank Santa Barbara Audubon Society for their constant support and the Santa Barbara Museum of Natural History for waiving the fee for Fleischmann auditorium. The Compilation Committee makes a huge difference when we crunch the numbers, and this year it was better than ever. Thanks to Dave Compton, Rebecca Coulter, Jared Dawson, Patrick McNulty, Joan Murdoch and Bill Pollock without whom we could never manage a Count of this complexity. Bill Pollock has written a special computer database program for the Count, which has saved hours and hours of our time. Thanks also to all those who worked on the countdown potluck: Lee Moldaver, Carol Keator and everyone else who helped make the evening a great success.

Let's hope the bird numbers can keep up with the numbers of birders as we continue our great reputation as one of the "birdiest" places in the country!

Results of the Bird Count are on page 2 and 3 of this issue.

WE DID IT!

By Dolores Pollock

anta Barbara Audubon Society proudly announces that we will build the new aviary at the Santa Barbara Museum of Natural History SOON! Due to the generous contributions of our members, we approached our goal. Thanks to the Wallis Foundation (\$40,000) and the Santa Ynez Band of Chumash Indians Foundation (\$25,000), we have exceeded our goal. The Santa Barbara News-Press Holiday Fund provided additional funds. We have raised close to \$200,000.

By the end of the month we expect final approval by the City of Santa Barbara and to have accepted a contractor's bid. If all goes as planned, we could break ground next month.

THANKS to all who helped make this dream a reality.

The mission of the Santa Barbara Audubon Society is to help conserve and restore the earth's natural ecosystems and improve its biological diversity, principally in the Santa Barbara area, and to connect people with birds and nature through education, science-based projects and advocacy.

Santa Barbara Christmas Bird Count Results Jan 2, 2010

Santa Barbara Audubon Programs

All programs will take place at Farrand Hall, Santa Barbara Museum of Natural History, Mission Canyon, Santa Barbara. Free on-site parking. All programs will begin at 7:30 p.m. and are free to the public. Doors open at 7:00 p.m. **SBAS** members are encouraged to bring guests.

Like Audubon, I shoot birds—But I do it with a digital camera Roger Millikan

Wednesday, February 24

igital cameras appeared on the consumer scene scarcely ten years ago and changed photography forever. Consider: Kodak no longer makes film cameras! This revolution has also changed birding and especially bird photography. Roger Millikan rode this wave starting with a 2 megapixel Fugifilm camera. Seven cameras later he uses an 18 megapixel Canon DSLR. Needless to say, his pictures today are better than they used to be. In this presentation Roger will briefly discuss how digital photography works and what camera choices are best for bird photography. Field techniques and post processing of the images will also be covered.

Roger will discuss the question of what you can do with your pictures once you have them. One important use is for proving to Audubon committees that you really saw and correctly identified that rare bird you claimed to spot. Nowadays, photo evidence is often required. You can also use your pictures to study bird behavior by comparing photo sequences over time. Roger will provide examples.

Finally you can seek to publish your photographs. For Roger, one outlet has been to join forces with Karen Bridgers to supply photos for her bird column in the *Santa Barbara News Press*. Recently Roger has published a small book: *Birds of Cachuma Lake – you will most likely see*. Roger says there is a learning curve involved with publishing; he will discuss some of the important aspects. All in all Roger says it has been great fun.

Latest status of Marine Mammals of the Santa Barbara Channel Peter Howorth

Wednesday, March 24

Peter Howorth, Director of the Santa Barbara Marine Mammal Center, will speak about the status of marine mammals of the Santa Barbara Channel. This region boasts the most diverse seal and sea lion rookery in the world. It is also host to about a third of the world's species of whales, dolphins and porpoises. Some species are flourishing, while others are not despite numerous regulations designed to protect them.

Peter has followed the sea for more than 50 years, first as a competitive free

diver, surfer and professional diver. He captured marine mammals for sea life parks in the 1960s and founded the nonprofit Santa Barbara Marine Mammal Center in 1976. He serves as an environmental consultant for offshore projects, helping to prevent impacts to marine life. He has authored books and has been a columnist for the New Press for more than 25 years.

Santa Barbara Audubon Field Trips

These trips are fun for both beginning and expert bird watchers. Binoculars are useful for enjoyment of birds, but if you don't have a pair please call the trip leader and we'll lend you a spare. Trips are free unless noted. Please contact **Jack Sanford** (805) 566-2191 or **jacksanford@hotmail.com** for details or questions.

Sandhill Crane Overnight Field Trip Saturday and Sunday, Feb. 13-14

Target Birds: Sandhill Cranes, Burrowing Owls, Common Moorhens, Horned Larks, Loggerhead Shrikes, Lark Sparrows, Blue-winged Teal, Marsh Wrens, Great Horned Owls plus many other species.

Leader: Jack Sanford

Cost: free (camp ground fees \$8-\$10) (Motel 20 minutes away

in Lost Hills or Delano)

This Audubon field trip will visit the Colonel Allensworth State Historic Park (CASHP), the Pixley National Wildlife Refuge (PNWR) and the Kern National Wildlife Refuge (KNWR). It will be an overnight trip with camping at one of two places. Allensworth State Park has closed their nice campground, but I am working on it. If CASHP doesn't work out we will have primitive camping at the KNWR. Motels at Lost Hills include Motel 6 and Day's Inn. At Delano there is a Holiday Inn. Everyone must make their own vehicle arrangements and bring the necessary camping equipment, layers of clothes, food and drink plus birding equipment.

We will not caravan, rather each participant will travel from the S.B. area at approximately 7 a.m. on Saturday. It is approximately 200-230 miles to CASHP from S.B. depending upon the route. One way to get there is to take Hwy. 101 to Paso Robles. Take Hwy. 46 to Lost Hills. Cross Hwy. 5 but stay on Hwy. 46 to Hwy 43 (18 miles). Turn left (north) on Hwy. 43 and proceed to CASHP (15 miles). Or you can take Hwy. 101 south to Hwy. 126 to Hwy. 5 to Hwy. 46 to Hwy. 43, and turn left (north) on Hwy. 43 to CASHP (15 miles).

We will meet just outside CASHP at approximately 1:30 p.m. After determining where we will camp, we will bird the

park looking to spot Burrowing Owls etc. After that (between 4 p.m. and 5 p.m.) we will travel to PNWR and view the Sandhill Cranes coming in till dark. After breakfast on Sunday we will bird the KNWR for several hours and then begin our trip home. We will return Sunday evening.

Rancho Santa Barbara (Lone Star)

(East end of Lake Cachuma)

Saturday, March 20, 8 a.m.-noon

(7:30 a.m. at car pool location)

Target Birds: Geese, Common Goldeneyes, Wood Ducks, Lewis's Woodpeckers, Bald Eagles, Clark's Grebes, American White Pelicans and other water and song birds

Leader: Rob Lindsay

Directions: Coming from the south take Hwy. 101 to Lake Cachuma/State St. off ramp. Turn right on State St. and turn right into the Five Points Shopping Center. Coming from the north take Hwy. 101 to the State St. off ramp. Turn left onto State St. Turn right into the Five Points Shopping Center. Park near Carl's Jr. restaurant. We will car pool from here at 7:30 a.m. (No gas money required.)

Or you can meet us at 8:00 a.m. at the gate to Rancho Santa Barbara (4001 Hwy. 154, identified by a pipe gate with a large star on it). We must all meet at the gate and enter the ranch as a group. Wear walking shoes. Binoculars and spotting scopes are useful. Bring water and a snack. Enjoy ranch owners Lee Carr and his brother Charles Carr's hospitality at one of the best inland winter birding areas in the county!

Lake Los Carneros Community Volunteer Day Saturday, February 13, 9 AM to 12 Noon.

Audubon members, including Joel Fithian, pictured, help plant natives along the margin of Lake Los Carneros, December 20

Day is Saturday, February 13, 9 a.m. to 12 Noon. Join friends and neighbors helping to restore the valuable wildlife habitat that surrounds Lake Los Carneros. The project, funded by the Goleta Valley Land Trust, receives in-kind support from the City of Goleta and Santa Barbara Audubon Society, and is supervised by Channel Islands Restoration. So far, over 300 native plants have been planted, and a mountain of weeds removed. Saturday's activities will include planting, watering, mulching and weeding. As always, hand tools, gloves, refreshments, and good company will be provided. For more information, contact Julie Kummel, 805-403-3203.

Friday Bird Walks

Join us on the second and fourth Fridays of each month at 8:30-10:30 a.m., except as otherwise noted. Please call Bird Walk leader Jack Sanford 566-2191 or email at jacksanford@hotmail.com if you are interested in leading a future bird walk to your favorite birding location or have any questions.

Lake Los Carneros Friday February 12, 2010

Target Birds: Waterfowl, winter songbirds

Directions: From Hwy. 101 take the Los Carneros off ramp and head towards the mountains. (Stow House is on the right.) Turn into the driveway by the fire station. We will meet in the parking lot behind the fire station.

San Jose Creek Area (near Kellogg Tennis Courts)

Friday, February 26, 2010

Target Birds: Songbirds, Woodpeckers, Thrashers, Thrushes, Kinglets, etc.

Directions: From Hwy. 101 take the Patterson Ave. off ramp and head towards the mountains. Turn left on Cathedral Oaks Rd. Turn left at the Kellogg Rd. stoplight. Park and meet near the tennis courts.

Pt. Mugu Naval Air Station (Bonus Field Trip/Bird Walk combination)

Friday, March 5, 2010 8:00 a.m. (car pool time)-1:00 p.m.

Target Birds: Waterfowl, Rails, Egrets, shorebirds, ducks, Vermillion Flycatchers, raptors, etc.

Trip Leader: Martin Ruane

Only 25 people will be allowed to enter the Naval Air

Station so it is necessary to make a reservation by calling Jack Sanford at 566-2191 or emailing him at jacksanford@hotmail. com and receiving confirmation. The deadline for making a reservation is Monday, February 22. Jack must forward a list of participants to Pt. Mugu on February 25. We will car pool (\$8.00 gas money to drivers) from the Andree Clarke Bird Refuge at 8:00 a.m. Once you receive reservation confirmation, you can meet us at the base if you so desire.

Directions: Take Hwy. 101 to Oxnard and the Rice Ave. off ramp. Head towards the ocean. Take Hwy. 1 southeast to the Wood Rd. turnoff towards the Base, and turn left at the stop sign. Meet at the main gate parking lot. You must be a citizen of the United States. You will need a photo ID and social security number, and you must fill out a security form before we enter the base. The Base Naturalist, Martin Ruane, will guide us around the base from 9:00 a.m.-12 noon. Join us for this unique and rare opportunity. Thanks to Peggy Kearns and Jeff Hanson for making the necessary arrangements to visit the Base.

Elings Park Friday, March 19, 2010

(Note: This is the 3rd Friday of the month)

Target Birds: Raptors, songbirds, Juncos, Warblers, Finches, etc.

Directions: From Hwy. 101 take the Las Positas off ramp and head towards the ocean. Look for the Elings Park entrance sign and turn left on Jerry Harwin Parkway. Proceed to the Battistone Foundation Soccer parking lot located in front of the park office building. Park in that immediate area. We will meet there and bird the area.

Welcome!

SBAS extends a warm welcome to our newest members. We look forward to seeing you at our programs and field trips. Thanks for joining!

SBAS Needs Your E-mail Address

To be added to the **SBAS** e-mail list, just send an e-mail message with the subject line, "Add + your name" to Membership@SantaBarbaraAudubon.org

The **SBAS** e-mail list will only be used for SBAS business and will not be sold or shared with any other group.

GRAPHICS HELP WANTED - Could you help Santa Barbara Audubon by designing flyers and invitations for our events? The Development Committee and others need this support. If you can volunteer or have questions, please contact Dolores Pollock at 681-8661 or Development-1@SantaBarbaraAudubon.org

Audubon Society Membership Application

Local Chapter-only Membership

This is a full membership to the Santa Barbara Audubon Society, with all funds put to work locally.

Includes:

- * a subscription to the local newsletter, El Tecolote
- * new enrollments current through June 30, 2010
- * subsequent membership dues on a July June cycle Does Not Include:

- * National magazine, Audubon,
- * distribution of your name to any other organization The cost is \$25 annually.

This is my choice of membership!

Make check payable to:

Santa Barbara Audubon Society

Da	National Santa B	and	Local	Membe	rship
7	Santa B		Cada COZ	C1207	F

This is the traditional membership offered by the National organization. Includes:

- * membership on both the local and national levels
- * most of membership dues applied to national issues and advocacy
- * both the national magazine, Audubon, and the local El Tecolote
- * renewal notices from National organization
- * your name may be distributed to third party advertisers

The cost for this introductory membership is \$20, or \$15 for senior 62+ or student.

(NAS subsequent-year memberships are currently \$35/year.)
